Our First Excursion

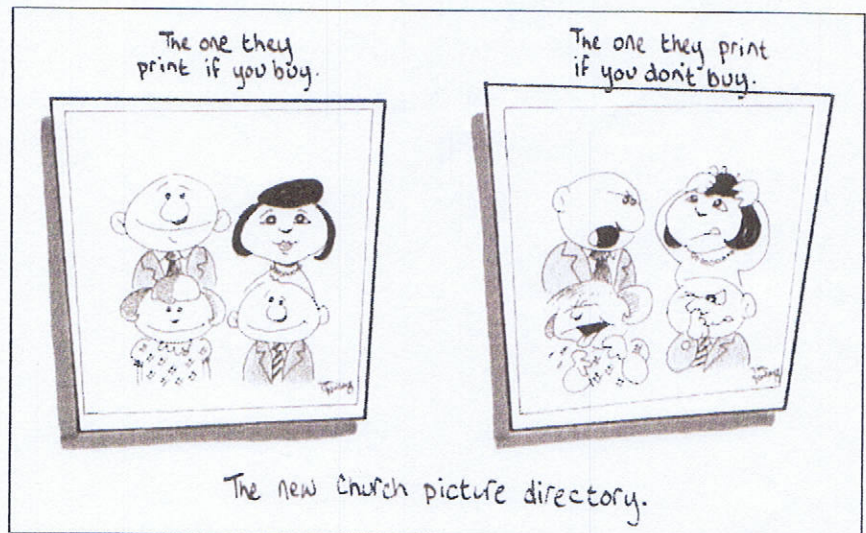

On April 22nd, Earth Day, Club 3:16 finally, yes FINALLY, went on our first adventure as a group. We had a beautiful day to explore the zoo. Did you know our zoo is the largest zoo in the United States? The NC Zoo is seated on a 2,200-acre tract of land in the Uwharrie Mountains and approximately 500 acres of this property have been developed into the largest "natural habitat" zoo in the United States. The first exhibits opened in 1974 as a temporary facility while the permanent zoo was being built. Amazing! Visit their website www.nczoo.org to discover more or to plan your visit.

The BEST part of the day was the opportunity to feed Turbo, the giraffe. What an AMAZING experience! Definitely one we all will remember for a long time to come. Thank you to all who came along for the ride and for your support! What grand adventure will we go on next? Stay tuned...
